

EASYGRIP EXG Border Stone Handle

Small, lightweight, easy to handle but nonetheless ultra-strong!
EASYGRIP EXG is a mechanical grab suitable for handling parallel, plane and non-conical concrete elements, such as border stones, slabs, block steps and kerb stones.

- The compact and lightweight EASYGRIP EXG can be attached to a carrier (loading crane, mini-excavator etc.) by means of hoisting belts or chains. Thus just one person is able to operate the grab mechanically.
- The grab comes with two handles and thus is also suitable for a two-man manual operation.

EXG-MAXI: With larger gripping range and height-adjustable support as standard.
